Device Operation

Charge the device

Before using TR-151 for the first time, please charge it by connecting to AC power adapter under the power-off condition at least 4 hours. You can also charge the TR-151 by connect it to PC or Notebook via USB cable. (The power of PC or of notebook should be turned on.)

Note: The attached battery is specially designed for TR-151. Please do not use other type of battery; otherwise it will damage the device. If you need to change the battery of TR-151, please contact your local dealer

Install SIM card

Unscrew TR-151 by screwdriver.

Lift up the back cover.

-Push forward the cover of SIM card slot to the position marked with "OPEN". Then lift up the cover

-Insert the SIM card with its metal contacts facing down and the cut corner at the top left.

-Please make sure DIP switch 3 is at Off position.
-If DIP switch 3 is at On position, please turn it at Off position with the sharp-pointed stuff.

Install Battery

Plug the battery connector into socket. Be aware that the red wire must be plugged on the top side.

Please put the connector wire under the battery, and then put the battery into battery compartment.

NOTE:

After installing the battery, the status LED will emit red light. After the LED go out, please wait for 5 seconds before turning on the power.

Please take out the battery if you do not use TR-151 for a long time.
